UNDERGRADUATE VIEWBOOK

THE UNIVERSITY OF
WINNIPEG

Welcome to UWinnipeg

The University of Winnipeg is located on
Treaty One Territory and the National Homeland
of the **Red River Métis, in Wiiniibak, Manido Abi.**

We acknowledge these are the ancestral lands of
the **Anishinaabeg, Anisininew, Ininiwak/Nehethowuk,**
Oceti Sakowin/Dakota Oyate, and **Michif (Métis) Peoples,**
that our water is sourced from **Shoal Lake 40 First Nation**
in **Treaty Three Territory,** and that most of our
hydro-electricity comes from **Treaty Five**
Territory in northern Manitoba.

A VIBRANT CAMPUS IN THE HEART OF THE CITY

3. Buhler Centre (Business)
4. Richardson College for the Environment and Science Complex (Science)
5. Global College

Wes Lee Coyote is hidden five times throughout this book. **Can you find him?**

**AN
ACADEMIC
EXPERIENCE
LIKE NO
OTHER
THREE
REASONS
YOU'LL
LOVE
IT HERE**

01. YOU'RE MORE THAN A NUMBER

Smaller class sizes enhance your university experience and provide more opportunities. Ask more questions, get to know your professors, and meet new people.

Our caring instructors have a big impact on your learning experience. UWinnipeg's professors put you first, providing you with support to succeed in your studies and opening doors to future opportunities.

"I came to University of Winnipeg because I wanted the option of smaller classes, and I wanted to have that one-on-one relationship with my professors and my classmates. That has been extremely fulfilling for me, and I really enjoy my time here because of that."

—Maya, Rhetoric and Communications

"I've had really great experiences with professors, and they've been super helpful. They've written me letters of recommendation, and one of them took the time to sit down with me and help me plan my courses."

—Sabrina, Business Administration

02. EARLY, HANDS-ON LEARNING

You don't have to wait to get first-hand experience. While many universities offer research opportunities at the graduate level, UWinnipeg prides itself on giving undergraduate students more opportunities to take part in real-world research.

Learning isn't just for the classroom. Get practical experience with integrated programs, cultural activities, and impressive funding and training opportunities.

research centres
and institutes

“Last summer, I was in the Pathways to Graduate Studies research program. I’m also in another research program this summer. My main purpose was just to get better at doing research, but it has been very fun. I really like working in the lab.”

—Wayne, Biochemistry

“There are lots of opportunities for practicums and internships that allow you to apply what you’ve learned. Right now, I’m doing an internship with the Winnipeg Sea Bears.”

—Alberto, Athletic Therapy

03. ENDLESS OPPORTUNITIES FOR STUDENTS

The beauty of learning is that it can happen in many ways. You’ll have opportunities beyond books and the classroom, such as lab research, conferences, and work placements.

You’ll encounter new ideas and explore traditional ways of knowing.

“The Indigenous Summer Scholars Program gave me hands-on experience and the opportunity to learn directly from a professor.”

—Damien,
Applied Computer Science

Discover your downtown campus

UWinnipeg is the place to be for music, sports, culture, and finding a balance between work and play. There is always something happening around campus.

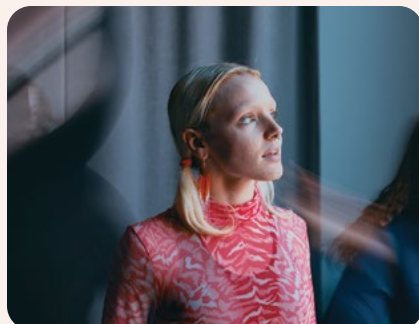

UWinnipeg is walkable, bike-friendly, and easy to access via transit. You'll be part of a vibrant community in the heart of downtown Winnipeg, surrounded by exciting social and cultural opportunities.

The historic Exchange District is only a 15-minute walk away!

Watch the Wesmen on campus or walk down Portage Avenue for Jets, Sea Bears, or Moose games.

Arts and culture

Enjoy free music performances, recitals, and workshops through our partnership with the Manitoba Conservatory of Music & Arts. Students can also access studio practice spaces.

Gallery 1C03 is UWinnipeg's campus art gallery. Take in a variety of exhibits throughout the year, or showcase your own art in our annual staff and student exhibit.

Our Theatre and Film department is one of the largest in Canada, and students can experience free live performances right on campus at the fully-equipped Asper Centre for Theatre and Film.

Residence

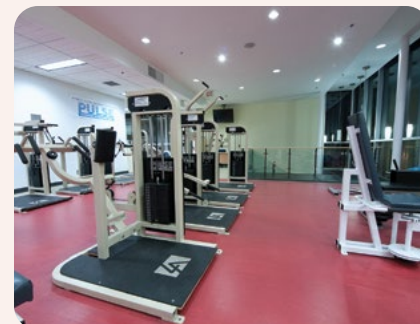

Living in residence connects you to the centre of student life on campus and offers the convenience of being minutes away from class.

Be part of a community with single or shared dorms and furnished apartments in McFeetors Hall, or find a home away from home with shared-house living in Balmoral Houses. Family housing options are also available.

Dining

You don't have to leave campus to get fresh, delicious and authentic dishes made from scratch. Award-winning Diversity Food Services operates many of the restaurants and cafes at UWinnipeg, and is a recognized leader in sustainable food services.

Recreation and wellness

The Axworthy Health & RecPlex is a state-of-the-art facility with a community gym and an indoor green space that accommodates a variety of sports like soccer, flag football, and track and field. You can use the artificial turf fields, four-lane sprint track, retractable batting cages, or the dance/yoga studio.

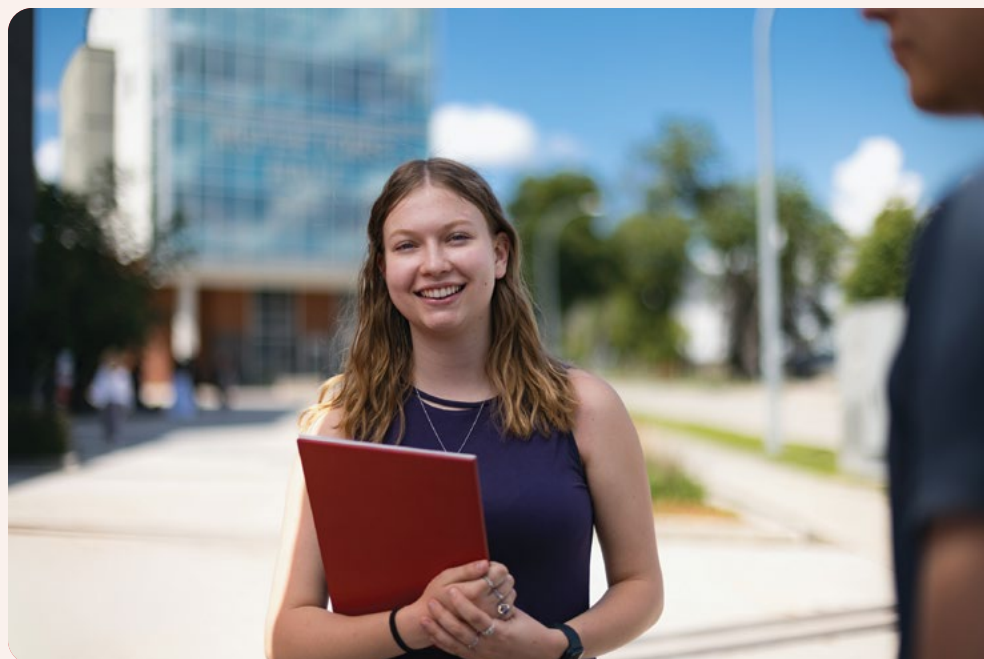

Squash, strength training, and basketball are just some of the free intramurals, classes, and drop-in sports available to UWinnipeg students. There's something for every interest and skill level.

The Bill Wedlake Fitness Centre features quality cardio equipment, weight machines, and free weights. Students enjoy unlimited access to the facility year-round.

Campus & downtown safety

UWinnipeg is proud of its safe and welcoming campus. Security patrols, emergency phones, and safe-walk services help create a secure environment for studying and campus life.

“There are good food places around here, and there are often activities to take part in. We also have sports on campus—lots of basketball and volleyball matches. I really like it.”

—Ashima, Education

Student experience

Our campus is located in one of Canada's most diverse neighbourhoods. Make new friends, enjoy new experiences, and learn alongside peers from around the world.

14%

of first-year students self-identify as Indigenous

75

countries represented by our 1,500+ international student community

82

student groups, representing a wide variety of interests, active on campus

550+

Events held on campus each year

"Studying at the University of Winnipeg has been filled with expansive learning, networking, and community connection."

—Casandra, Human Rights

"My UWinnipeg experience has been overwhelmingly positive and has given me so many connections in the professional world."

—Phoenix, Theatre and Film

Cheer on the Wesmen or join one of our teams!

UWinnipeg's Wesmen teams have enjoyed incredible success over the past 40 years. They have taken home 20 national championships, including 10 men's volleyball, six women's volleyball, and four women's basketball titles.

“The community is really good. I enjoy playing intramural sports, and the Duckworth Centre is packed for Wesmen basketball games.”

—Gavin, Education

Campus life

The University of Winnipeg Students' Association provides services and hosts social events throughout the year.

Meet new friends and join in activities at the Rainbow Lounge, BIPOC Lounge, and Indigenous Student Lounge. Be part of our many student groups or unwind with friends and classmates in the UWSA Gaming Lounge.

UWinnipeg is home to a campus and community newspaper, **The Uniter**, as well as a radio station, **CKUW**.

Student success

A degree from UWinnipeg opens up a world of possibilities.

“It was really nice to be able to have that direct access to professors and have their input. It was nice to get their feedback on their experiences and how the degree can lead to future career paths.”

—Rhéanne (BA'12), President, Winnipeg Sea Bears

“I was just so fortunate to be able to work with a professor in an area that I deeply love, agriculture. They gave me both the independence and guidance I needed to learn and take advantage of opportunities to think outside of the box.”

—Faith (MSc 26), Senior Data Scientist

“UWinnipeg gave me a sense of belonging. That comes through building a community around you that can support you, challenge you, and help you further yourself in whatever goals you strive to achieve.”

—Cameron (BEd/BA'23),
Indigenous Languages Consultant

Supports for our students

As a student at the University of Winnipeg, you will have access to a variety of free student services that are here to support you in your studies. These supports are available from the day you're accepted to the day you graduate.

- › Counselling Services
- › Health and Wellness Services
- › Academic & Career Services
- › Accessibility Services and Resource Centre
- › Adult Learner Services
- › Awards and Financial Aid
- › International Student Services
- › Immigrant & Refugee Student Services

UWinnipeg is one of the first universities in Canada to ensure all students have foundational knowledge of Indigenous Peoples and cultures.

Degree Legend

BA	Bachelor of Arts
BSc	Bachelor of Science
BEd	Bachelor of Education
BBA	Bachelor of Business Administration
BKin	Bachelor of Kinesiology
BPHE	Bachelor of Physical and Health Education
Honours	4-Year Honours Degree

What are undergraduate studies?

A 3-year degree can be your path to employment in your area of interest, while a 4-year degree can lead to employment, graduate studies, and the option to complete honours courses.

A bachelor's degree consists of a **major** (area of focus), **degree requirements**, and **electives** (engaging courses that are not necessarily related to the major). Electives and degree requirements enable you to take courses in multiple areas of interest. Business students can take a course in theatre and film, for example, while science students could also study literature or philosophy. Find the courses and subjects that are right for you!

Faculty of Arts

Studying within the Faculty of Arts develops your perspective on a variety of topics in the social sciences and humanities, while building essential skills in problem-solving, creative and critical thinking, research, teamwork, and communications. Taking a variety of Arts courses while completing any degree is a great way to add breadth to your knowledge base and skill set. A degree in the arts can be your pathway to careers in the fields of communications, cultural heritage, law, policy analysis, and more.

Classics

Classics is the study of the Ancient Greek and Roman worlds from the perspectives of literature, history, archaeology, and art history. For various historical reasons, the Classical world and Classical languages have had an enormous influence on critical contemporary concepts, and therefore Classics is a great way to delve into a fascinating topic and learn critical research, writing, reading, and presentation skills.

BA 3YR / 4YR / Honours

Career pathways:

- › Librarian
- › Art curator
- › Computer programmer

Communications

This joint program with RRC Polytechnic provides a well-rounded liberal arts education with applied communications training. The skills you develop will be sharpened with hands-on experience in work placements, allowing you to make valuable professional contacts and hone your craft in applied situations.

BA 4YR / Honours / Joint Degree-Diploma (RRC Polytech)

Career pathways:

- › Journalism
- › Public relations
- › Advertising

Criminal Justice

Examine concepts and practical applications of justice, as well as historical and contemporary explanations of responses to crime. Students are asked to think critically about the key challenges confronting the criminal justice system, and to always question how justice might be achieved.

BA 3YR / 4YR / Honours

Career pathways:

- › Social and public policy
- › Community outreach / development
- › Law enforcement / corrections

Note: Criminal Justice offers a 1-year (30 credit hours) Certificate program. See page 29 for details.

Dance

This joint program with the School of Contemporary Dancers offers the advantages of concentrated, conservatory-style dance training teamed with a liberal arts education. Admission to the dance school is by audition, for students with intermediate training.

BA 3YR / 4YR / Honours

Career pathways:

- › Performer
- › Choreographer
- › Artistic director

Disability Studies

Think about “disability” and “ability” in new ways. Using the social model of disability rather than the bio-medical model, the problem becomes a lack of ramps rather than someone using a wheelchair. The focus of this interdisciplinary program is the critical analysis of disablement in society.

BA 3YR / 4YR / Honours / Joint Degree-Diploma (RRC Polytech)

Career pathways:

- › Government worker
- › Policy analyst
- › Disability rights advocate

East Asian Languages and Cultures

Study Chinese, Japanese, and Korean language and engage contextualized primary source materials from across regions and time periods of East Asia.

BA 3YR / 4YR

Career pathways:

- › Public service
- › Education
- › Business

English

Consider the various aesthetic, political, and historical factors influencing literary and media artforms. Develop excellent analytical, critical thinking, and writing skills, and choose from a number of different areas ranging from creative writing to critical theory, medieval literature to contemporary TV and films.

BA 3YR / 4YR / Honours

Career pathways:

- › Marketing & communications
 - › Law
 - › Education
-

French Studies

Acquire French language skills from beginning to advanced levels. Take courses on the social, political, and cultural history of France and Francophone Canada, linguistics, translation, and francophone literature. Study abroad in Tours, France. Develop analytical, communication, and writing skills.

BA 3YR / 4YR / Honours

Career pathways:

- › Government administration
 - › Publishing
 - › Translation and interpretation
-

German Studies

Acquire German language skills from beginning to advanced levels. Take courses on social, political and cultural aspects of the Germanic world, German film, literature, or translation. Study abroad in Bamberg, Germany. Develop analytical, communication, and writing skills.

BA 3YR

Career pathways:

- › International business
 - › Education
 - › Immigration settlement agent
-

History

Exploring the past helps us understand the complexities of the present and anticipate the challenges of the future. Improve your ability to evaluate evidence and learn how to present interpretations in clear and logical written and oral arguments.

BA 3YR / 4YR / Honours

Career pathways:

- › Education / research
 - › Historian / public history / museums / heritage
 - › Policy advisor
-

History of Art

Art has the ability to transform space and create dialogue that invokes social change throughout different moments of time and various societies. Probe the history behind the world's outstanding sculptures, paintings, and architecture, while developing skills in critical thinking and visual communication, and come into firsthand contact with selected works of art.

BA 3YR / 4YR / Honours

Career pathways:

- › Museum or art curator
 - › Gallerist / arts administration
 - › Media / journalism
-

Indigenous Languages

Indigenous languages are the foundation of Indigenous knowledges and communities. The Indigenous Languages thematic major provides students with an interdisciplinary education in Indigenous languages that focuses on revitalization, planning, and communication. Through core courses in Indigenous Studies and Linguistics, students grow as speakers of an Indigenous language and as capable proponents of Indigenous language revitalization.

Four Certificate options (30 credit hours each)

BA 3YR / 4YR / Honours

Career pathways:

- › Indigenous languages educator
 - › Curriculum development
-

Indigenous Studies

The department is designed to provide students with a multidisciplinary perspective grounded in an understanding of Indigenous Peoples' (First Nation, Métis and Inuit) principles, values, and philosophies.

The program provides students with a solid background in theory and practice regarding the distinctive intellectual, political, and ecological frameworks and legal environments of Indigenous Nations and spaces across Turtle Island.

BA 3YR / 4YR / Honours

Career pathways:

- › Indigenous government
 - › Senior policy advisor
 - › Pre-Masters: Social Work and Criminal Justice
-

Interdisciplinary Linguistics

Examine the complexities of language use in daily communication within various social and cultural contexts, and across a variety of university departments. Gain an in-depth understanding of how language encodes meaning, as well as skills to write, read, and speak with greater confidence, fluency, and power.

BA 3YR / 4YR / Honours

Career pathways:

- › Broadcasting
- › Forensic linguistics
- › Speech pathology

Mennonite Studies

This program provides an opportunity to study the rich heritage of the Mennonites and their contribution to society. This interdisciplinary program combines studies in history, religion, culture, and literature as they relate to Mennonites in transnational contexts.

BA 3YR

Career pathways:

- › Archiving
- › Counselling
- › Social work

Philosophy

Engage in disciplined and imaginative thinking about the philosophical questions common to all humans by studying the works of great philosophers. Through analysis and discussion, learn how to think critically and understand how the ideas that influence us today emerged.

BA 3YR / 4YR / Honours

Career pathways:

- › Bioethics
- › Public ethics
- › Philosophical counselling

Political Science

Politics affects our lives in a vast number of ways. Examine relations between state and civil society, the power of human rights, and the impact of political parties, interest groups, and government organizations.

BA 3YR / 4YR / Honours

Career pathways:

- › Government research and policy analyst
- › Diplomatic and foreign services
- › NGO policy analyst

Psychology

Why do people think, feel, perceive, and behave the way they do? Psychologists seek to answer these questions by studying the human mind and behaviour. The program explores topics ranging from the basic nervous system to principles of perception, learning, cognition, and interpersonal relations and communication.

BA 3YR / 4YR / Honours

Career pathways:

- › Psychological research laboratories
- › Counselling, clinical, and forensic psychology
- › Human resources

Religion and Culture

Examine religion in relation to decolonization and power, Indigenization and race, gender and sexuality, land and ecology, and the self in community, fostering critical scholarship and meaningful dialogue.

BA 3YR / 4YR / Honours

Career pathways:

- › Public service
- › Education
- › International development

Take the stage

Our theatre and film program is one of the largest in Canada.

See the world

Study abroad and student-exchange opportunities are available in 22 different countries.

Rhetoric and Communications

Emphasizes the evaluation, production, and precise editing of messages for a range of audiences, media, and purposes, to develop highly adaptable communicators with superb hands-on skills in drafting, revising, and editing.

BA 3YR / 4YR / Honours

Career pathways:

- › Strategic communications
- › Copywriting and technical writing
- › Journalism and publishing

Sociology

Sociologists help us to understand how common sense comes to be common sense. In other words, sociology tells us how and why certain ideas are taken for granted and become popular and dominant during different social, economic, and historical time periods.

BA 3YR / 4YR / Honours

Career pathways:

- › Social scientific research
- › Urban planning
- › Labour relations

Spanish Studies

Acquire Spanish language skills from beginning to advanced levels. Take courses on social, political, and cultural aspects of Spain and Latin America, translation, or Hispanic literature. Develop analytical, communication, and writing skills, all of which are desirable to employers.

BA 3YR

Career pathways:

- › International business
- › Diplomacy & foreign service
- › Education

Theatre and Film

One of the largest in Canada, our programs offer highly hands-on experiences in Acting, Design, Production & Stage Management, Theatre-Making, Theatre Studies, Drama in Education, and Filmmaking, keeping within the liberal arts framework.

BA 3YR / 4YR / Honours

Career pathways:

- › Theatre artists
- › Filmmakers
- › Arts administration

Urban and Inner-City Studies

Urban and Inner-City Studies is an interdisciplinary program that takes a place-based and community-engaged approach to studying cities. We explore complex issues of social, political, economic, and spatial justice through a critical urban studies lens. Students study various aspects of cities, such as urban Indigenous experiences, immigration, urban poverty, housing, community organizing, planning and advocacy.

BA 3YR / 4YR / Honours

Career pathways:

- › Community development
- › City and community planning
- › Social work and social services

Women's and Gender Studies

Promotes an intersectional approach to understanding social problems and phenomena. It pays special attention to the ways sex, gender, and sexuality are shaped by colonialism, racism, ageism, homophobia, and transphobia, as well as by constructions of difference based on class, (dis)ability, religion, ethnicity, and culture. In our classes, students of all genders and sexualities learn about feminist movements to end sexism, exploitation, and related social oppressions. The department encourages diversity among its students and in its curriculum, and offers the means to contribute to social change.

BA 3YR / 4YR / Honours

Career pathways:

- › Law school
- › Magazine editors
- › Entrepreneurs

The Centre for Research in Cultural Studies

The Cultural Studies Research Group at UWinnipeg has actively worked with Shoal Lake 40 First Nation on a number of solidarity actions.

Faculty of Business and Economics

Steeped in our interdisciplinary approach, learning opportunities in our business and economics programs engage and challenge students with real-world contacts. We don't just produce graduates – we develop innovative leaders who are capable of adapting to the ever-changing needs of a modern world. Graduates have found work in accounting firms, banking, international organizations, insurance companies, manufacturing, and more.

Business and Administration

The world is changing, the demands of employers are evolving, and challenges that were once local are now global. Recognizing change, adapting to it, and being ready for it are the hallmarks of good business leadership. Our business education means getting ready for the future by helping students develop solid fundamental skills along with flexible abilities to face the future with confidence.

Concentration areas available with the 4-year program:

- › Accounting
- › Human resource management
- › Marketing
- › Operations and supply Chain management

BBA 3YR / 4YR

Prerequisites: Pre-Calculus or Applied Mathematics 40S

Career pathways:

- › Business operations
- › Not-for-profit organizations
- › Co-operative enterprises

Economics

Economics analyzes how societies provide for their well-being. Learn about the difficult choices made by consumers, investors, managers, policy makers, and citizens. To help fully understand these choices, economic theory and its historical and institutional background are presented within a Canadian perspective.

BA 3YR / 4YR / Honours

Prerequisites: Pre-Calculus or Applied Mathematics 40S

Career pathways:

- › Business operations
- › Banking
- › Law

Economics and Finance

Learn the language of Bay Street and Wall Street and gain a deep understanding of the role financial markets and financial instruments play in a modern economy. Analyze how financial instruments and markets can contribute to the well-being of all members of society.

BA 4YR / BBA 4YR

Prerequisites: Pre-Calculus or Applied Mathematics 40S

Career pathways:

- › Business operations
- › Corporate accounting
- › International organizations

Co-op program

Gain real-world work experience and put classroom knowledge into action!

JDC West

UWinnipeg students have taken top scores at Western Canada's largest business competition.

**For more information
about applying, turn to page 34.**

Faculty of Education

Teachers have the unique opportunity to impact growing minds and shape young futures. Considered among the best in North America, our teacher education program is committed to preparing capable, caring educational leaders who are grounded in the ideals of service, scholarship, and equality.

Integrated Education Program

This unique program will allow students to work towards two degrees at the same time, while gaining practical experience. Over a period of five years, students will work towards a Bachelor of Arts, Kinesiology, or Science at the same time as a Bachelor of Education.

Starting in the second year, students are placed in the classroom to observe and gain teaching experience – and continue student teaching in every year of the program for a total of 24 weeks of experience.

Applicants choose from one of two streams:

- › Elementary stream – Kindergarten to Grade 8
- › Senior years stream – Grades 9 to 12

After-Degree Program

Those who already have a university degree can earn a Bachelor of Education in just two years.

For more information please visit: uwinnipeg.ca/after-degree-program

Other Education Programs

- › UWinnipeg / Red River College Polytechnic Joint Programs
 - Industrial arts education
 - Technical vocational teacher education
 - Post baccalaureate diploma program in education (PBDE)

uwinnipeg.ca/education

Developmental Studies

Analyze the biological, environmental, and social factors that influence individual and group development. In this interdisciplinary program, students have the opportunity to customize their university education to meet educational and career goals. Choose from Individual Human Development, Comparative Biological Development, and Child Development and Child Care.

BA 3YR / Joint Degree-Diploma - Stream C only (RRC Polytech, Université de St. Boniface)

Career pathways:

- › Youth and family program coordination
- › Child welfare advocacy and casework
- › University instruction

Teach overseas!

UWinnipeg offers overseas practicum and teaching opportunities to fifth year students.

24

total weeks of classroom teaching experience

Faculty of Science

We believe in learning and doing. Cutting-edge research opportunities await, like helping to diagnose dementia for earlier treatment, combating Dutch elm disease, or pursuing the discovery of new mathematical theorems. Our students expand their understanding of the world while getting ready to leave their own imprint. A science degree can open up doors to employment in biotechnology, agricultural development, statistical analysis, conservation and wildlife management, and much more.

Anthropology

Study the evolution of humankind by examining how humans have developed and adapted, both culturally and physically, to the world around them. Specialize in cultural anthropology, archaeology, or physical anthropology, or choose an integrated program that includes all three areas.

BA 3YR / 4YR / Honours

Career pathways:

- › Cultural resource conservation
- › Information science
- › International development

Applied Computer Science

Focuses on the theory and application of computing in business and scientific environments. Develop skills in core areas such as programming, database management, and software engineering, among others.

BA 3YR / 4YR

BSc 3YR / 4YR / Honours

Prerequisites: Pre-Calculus or Applied Mathematics 40S may be required

Career pathways:

- › Web development
- › Database administration and security
- › Systems analysis

Bioanthropology

Combining aspects of anthropology with biological and physical sciences, this program teaches students to examine human biological systems of the past and present. Gain an understanding of comparative anatomy, cellular biology, and methods in human and primate evolution and obtain experience in current laboratory techniques.

BSc 3YR / 4YR / Honours

Prerequisites: Pre-Calculus or Applied Mathematics 40S and Chemistry 40S

Career pathways:

- › Forensic laboratory science
- › Museum science
- › Hospital laboratories

Biochemistry

Study the chemistry of life. Investigate living systems by combining the knowledge and methodologies of biochemistry, cell biology, genetics, and microbiology with those of the physical sciences.

BSc 3YR / 4YR / Honours

Prerequisites: Pre-Calculus or Applied Mathematics 40S and Chemistry 40S

Career pathways:

- › Food technology
- › Pest control
- › Pharmaceutical design

Biology

Study all forms of life, from DNA to the interactions of organisms within various ecosystems. Specialize in botany, zoology, microbiology, ecology, genetics, or molecular biology.

BSc 3YR / 4YR / Honours

Prerequisites: Pre-Calculus or Applied Mathematics 40S and Chemistry 40S

Career pathways:

- › Research laboratories
- › Conservation and wildlife management
- › Scientific publishing

Chemistry

This is the essential science to the building blocks of life; it spans all aspects of our lives, from health and nutrition to scientific discoveries and the management of an environmentally sustainable world.

BSc 3YR / 4YR / Honours

Prerequisites: Pre-Calculus or Applied Mathematics 40S and Chemistry 40S

Career pathways:

- › Geochemistry
- › Toxicology
- › Materials science

Environmental Studies and Sciences

Combine many different perspectives to understand the changes in our environment, while acknowledging human impacts and providing a framework to develop solutions for environmental programs.

BA 3YR / 4YR / Honours BSc 4YR / Honours / Joint Degree-Diploma (RRC Polytech - Applied Environmental Science)

Prerequisites: BA program: none
BSc & Joint Degree-Diploma: Pre-Calculus Mathematics 40S or Applied Mathematics 40S and Chemistry 40S

Career pathways:

- › Natural resource management
- › Geographic land evaluation
- › Landscape architecture

Geography

Expand your understanding of our planet and interactions between the land and its people. Explore local, regional, and international systems; climate change; and urban and community development.

BA 3YR / 4YR / Honours BSc 3YR / 4YR / Honours

Prerequisites: Pre-Calculus or Applied Mathematics 40S is required for the science program. Chemistry 40S and Physics 40S may also be required, depending on course selection.

Career pathways:

- › City and regional planning
- › Hydrology
- › Soil conservation

Mathematics

Develop clear reasoning, gain creative problem solving skills, and open doors to cutting edge careers. Our program blends theory with applications and research opportunities to build a diverse skillset that is applicable to various problems and industries.

BA 3YR / 4YR BSc 3YR / 4YR / Honours

Prerequisites: Pre-Calculus Mathematics 40S

Career pathways:

- › Operations research
- › Machine learning
- › Quantitative finance

Neuroscience

This program provides an understanding of the integrated relationship between biology and psychology. Develop a strong understanding of the structure and function of the nervous system and explore the relationship between the nervous system and behaviour.

BSc 3YR / 4YR / Honours

Prerequisites: Pre-Calculus or Applied Mathematics 40S and Chemistry 40S

Career pathways:

- › University research laboratories
- › Scientific consulting
- › Psychology

Physics

This is the study of nature at its most fundamental level. In our internationally recognized department, students imagine, deduce, and investigate the inner workings of atomic nuclei, magnetic resonance imaging, and quantum gravity.

BSc 3YR / 4YR / Honours

Prerequisites: Pre-Calculus Mathematics 40S and Physics 40S

Career pathways:

- › Medical physicist
- › Astrophysics
- › Nuclear industry

Statistics

Statistics offers the tools to understand the language of numerical data through rational decision making. Take courses in statistical analysis, survey sampling, regression, design, time series and forecasting, survival analysis and epidemiology, while learning tools for application in health, business, computing, and government.

BA 3YR / 4YR BSc 3YR / 4YR

Prerequisites: Pre-Calculus or Applied Mathematics 40S

Career pathways:

- › Health care research
- › Data science & machine learning
- › Actuarial Science

**30 research and teaching labs
operate out of UWinnipeg.**

The Centre for Terrestrial and Planetary Research
UWinnipeg researchers at the Centre for Terrestrial and Planetary Research are working to figure out the composition of the dust in the atmosphere of Mars!

Global College

Global College fosters global citizenship and engagement in human rights, development practice, and peace and conflict studies through interdisciplinary teaching, research, dialogue, and action in local and global communities. In addition to the Human Rights undergraduate program, Global College hosts two distinct graduate degree programs: the Master's in Development Practice: Indigenous Development (MDP), and the Joint Master's in Peace and Conflict Studies (JMP-PACS).

Human Rights

Interested in questions related to international law, global citizenship, constitutional rights, social justice, and human rights? Through this interdisciplinary program, students explore human rights in theory and in practice, examine complex issues from multiple perspectives, and gain hands-on experience through local or international practicum placements.

BA 3YR / 4YR

Career pathways:

- › Researcher / policy analyst
- › Law / advocacy
- › Education

UWinnipeg is home to the only undergraduate degree in Human Rights in Western Canada.

Global College offers 1-year (30 credit hours) Certificate programs! See page 29 for details.

Gupta Faculty of Kinesiology and Applied Health

From a child's first step to an awe-inspiring athletic feat, we are captivated by human movement. Whether your passion is sport or health, science or fitness, explore the world of kinesiology and discover how we may optimize the potential for human performance. Graduates are prepared to enter employment in fields such as education, health and fitness promotion, athletic therapy, fitness assessment, training and exercise prescription, and personal training.

Kinesiology

Explore the study of human movement. This degree can be applied to various careers, spanning physical activity and aging, adapted physical activity (working with persons with disabilities), sport psychology, and health and fitness promotion, among others. It is also good preparation for graduate study.

BKin 4YR / Honours

Career pathways:

- › Health and fitness promotion
- › Personal training
- › Physiotherapy

Athletic Therapy

The scope of practice of an athletic therapist is devoted to the health care of the physically active individual. This involves injury prevention, immediate care, and reconditioning of musculoskeletal injuries. UWinnipeg's AT curriculum is one of only nine programs accredited by the Canadian Athletic Therapists Association (CATA).

Note: This is not a direct entry program. Applicants must first complete 60 credit hours (two years) of prescribed courses within the Kinesiology major program. The annual application deadline for fall entry into the Athletic Therapy enhanced major program is April 1. Selection is competitive.

BSc 4YR

Career pathways:

- › Athletic therapist - professional teams
- › Athletic therapist - private practice
- › Insurance case management

Physical and Health Education

Students thinking about teaching physical education in the school system as their career of choice should consider this integrated program. Combine kinesiology and education courses throughout five years of study to prepare to teach at the early, middle, or senior years level.

BPHE plus BEd

Prerequisites: See education requirements on p.38 of the viewbook.

Career pathways:

- › Physical and health education teacher - early to senior years

Work with athletes

Athletic Therapy students work with a variety of community sport teams, including the Wesmen.

Stay fit

Students have unlimited access to campus athletic and fitness facilities.

Pre-Professional Studies

If you have the vision, determination, and passion to enter a profession such as medicine, dentistry, or law, start here. Our smaller class sizes, research opportunities, and strong reputation for academic excellence will give you the advantages you need when applying to your professional program of choice. All of these UWinnipeg pre-professional programs are direct entry.

Pre-professional Program	Areas of Focus	Time at UWinnipeg	Total Duration	Grade 12 Courses (40S)
Chiropractic	Biology, Chemistry, Humanities	3 years *	7 years	Required: Pre-Calculus or Applied Math and Chemistry
Dental Hygiene	Biology, Chemistry, Statistics	1 year	3 years	Required: Pre-Calculus or Applied Math and Chemistry Recommended: Biology
Dentistry	Biochemistry, Physics, Statistics	2 years	6 years	Required: Pre-Calculus or Applied Math and Chemistry Recommended: Physics and Biology
Engineering	Physics, Mathematics, Chemistry	3 years	5 years	Required: Pre-Calculus Math, Chemistry (except Computer Engineering), and Physics
Health Sciences Technology	Anatomy, Biochemistry, Physics, Psychology	1 year	2-5 years	Required: Pre-Calculus or Applied Math and Chemistry Recommended: Physics (May be required)
Law	Criminal Justice, Human Rights, Political Science	2 years	5 years	General requirements only
Medicine	Anatomy, Biochemistry, Physics, Psychology	3 years *	7 years	Required: Pre-Calculus or Applied Math and Chemistry Recommended: Biology and Physics
Occupational Therapy	Humanities, Kinesiology, Psychology	3 years *	5 years	Required: Pre-Calculus or Applied Math Recommended: Chemistry, Biology, and Physics
Optometry	Biology, Chemistry, Calculus, Psychology	3 years *	7 years	Pre-Calculus or Applied Math and Chemistry Recommended: Physics (May be required)
Pharmacy	Biology, Calculus, Organic Chemistry, Statistics	2 years	6 years	Pre-Calculus and Chemistry Recommended: Biology
Physical Therapy	Biology, Kinesiology, Statistics	3 years *	5 years	Required: Pre-Calculus or Applied Math and Chemistry
Physician Assistant	Biochemistry, Biology, Psychology	4 years *	6 years	Required: Pre-Calculus or Applied Math and Chemistry Recommended: Biology and Physics
Radiation Therapy	Biology, Physics, Statistics	1 year	4 years	Required: Pre-Calculus or Applied Math Recommended: Chemistry and Physics
Respiratory Therapy	Biology, Psychology, Statistics	1 year	4 years	Required: Pre-Calculus or Applied Math and Chemistry Recommended: Biology and Physics
Social Work	Human Rights, Indigenous Studies, Women's and Gender Studies	1 year	4 years	General requirements only
Veterinary Medicine	Biology, Chemistry, Statistics	2 years	6 years	Required: Pre-Calculus or Applied Math and Chemistry Recommended: Biology and Physics

*These durations are sufficient for graduation with a bachelor's degree.

➔ If you change your mind, courses taken as part of a pre-professional program are applicable to UWinnipeg degree programs.

Certificate Programs

The University of Winnipeg offers a variety of certificates. Some are intended to enhance a bachelor's degree, and others can be taken part time as a stand-alone credential. The most common requirement for a certificate is 30 credit hours.

Certificate in Anishinaabemowin

This innovative, cohort-based program gives students the opportunity to build fluency in Anishinaabemowin through an immersive language environment.

Certificate in Applied Psychology

As well as the required courses, students in this certificate program complete volunteer placement activities from a community, government, or private organization.

Certificate in Community Advocacy

Based at Merchants Corner, this certificate allows students to learn alongside community organizations and gain firsthand exposure to community-based solutions.

Certificate in Human Rights

Students in this program learn about human rights theory, law, advocacy, and practices in cross-cultural and global contexts with an emphasis on strategies for positive change.

Certificate in Indigenous Languages

This certificate provides students with an interdisciplinary understanding of Indigenous languages that focuses on revitalization, planning, and communication.

Certificate in Justice, Law and Rights

Focused on doctrinal law in Canadian and international contexts, this certificate is intended for students wanting to expand their legal knowledge, including those planning to apply for law school.

Certificate in Public Policy and Administration

This certificate builds foundational knowledge in public management, policy development, and the operational structures of modern government systems.

Certificate in Supporting Multilingualism and Indigenous Languages in Schools

This certificate is offered as a part-time, cohort-based program to current school administrators, teachers, and other school staff.

Certificate in Teaching Indigenous Languages for Vitality

This certificate is offered as a part-time, cohort-based program to current language teachers and language speakers.

Certificate in Urban and Community Planning

This certificate draws on a variety of disciplines to equip students interested in urban issues or city planning to contribute to inclusive policies and more equitable cities.

Certificate in Urban and Inner-City Studies

Based at Merchants Corner, this certificate takes a place-based approach to studying cities, preparing students to take on complex issues of social, political, economic, and spatial justice.

Certificate in Writing

Students gain an understanding of audience, genre, and textual processes, as well as an increased confidence in writing knowledge, revision practices, written conventions, editing, and attention to style.

Research Methods Certificate

Students who graduate with this program's required Sociology courses and grade average can receive Research Methods Certification.

Campus living

uwinnipeg.ca/campus-living

Living in residence at UWinnipeg gives you the opportunity to live on your own, without being alone. You'll meet students from across Canada and around the world, establish lifelong friendships, and get involved in a variety of activities around campus and in the surrounding area.

Residence options

McFeetors Hall offers modern, air-conditioned dorm-style units with a private washroom, common lounge areas with a TV, kitchen and free Wi-Fi, study areas, and laundry facilities. Room options include single and double furnished dorms.

The Balmoral Houses feature shared common areas and private bedrooms with air conditioning.

Other options include family housing in McFeetors Hall as well as Downtown Commons, a mixed-use apartment complex across from the main campus.

Residence options and fees for one academic year (September-April)

McFeetors Hall Single furnished dorm with meal plan	\$12,750
---	----------

Balmoral Houses Single furnished dorm	\$6,400
---	---------

Student services

uwinnipeg.ca/student-services

We're known for our strong student supports. Here, you'll have access to a wide variety of free student services to support you in your studies.

Academic and Career Advising

uwinnipeg.ca/academic-advising

We are dedicated to helping you reach your academic and career goals. Meet with an academic advisor every year throughout your studies to get the most out of your degree plan. If you would like to explore your career options or learn more about how your degree relates to a career in your chosen field, you can meet with a career advisor, who can also help with employment services like résumé writing and interview skills.

Accessibility Services and the Accessibility Resource Centre

uwinnipeg.ca/accessibility-services

If you are a student who requires Accessibility Services (AS) including adaptive and/or accommodation services, you can declare your interest in receiving information about AS on your application (centre located in 1M35, on the first floor of Manitoba Hall).

Adult Learner Services

uwinnipeg.ca/adult-learner-services

If you are a new student who has been out of school for three or more years and do not meet the regular admission requirements, you qualify for mature status. Turn skills gained through work and life experience into university acceptance and credit.

Awards and Financial Aid

uwinnipeg.ca/awards

Find out how to finance your studies and how to apply for scholarships, awards, bursaries, and government student aid.

Student Wellness

uwinnipeg.ca/student-wellness

Comprehensive general and specialized counselling and health services are provided to all students for free at the Wellness Centre, located on the first floor of Duckworth Centre (1D24). Klinik on Campus offers free and confidential health information, workshops, and medical appointments.

Indigenous Student Services Centre (ISSC)

uwinnipeg.ca/issc

A hub of excitement and a vibrant gathering place for educational, cultural, and social activities, the ISSC strives to create a sense of community for Indigenous students throughout their studies. The student lounge has a computer lab, lockers, and a kitchen facility, and is open seven days a week. Supports include Elders-in-Residence, free tutoring, and academic advising.

📍 The majority of our Student Services departments are located at **489 Portage Avenue**, in the Rice Centre, across the street from the main campus.

International Student Services (ISS)

uwinnipeg.ca/iss

ISS provides a safe, educational, and culturally sensitive environment for all international students as they pursue their academic studies, from admission through to graduation. Take advantage of the social and cultural activities as well as the support and advising that ISS provides.

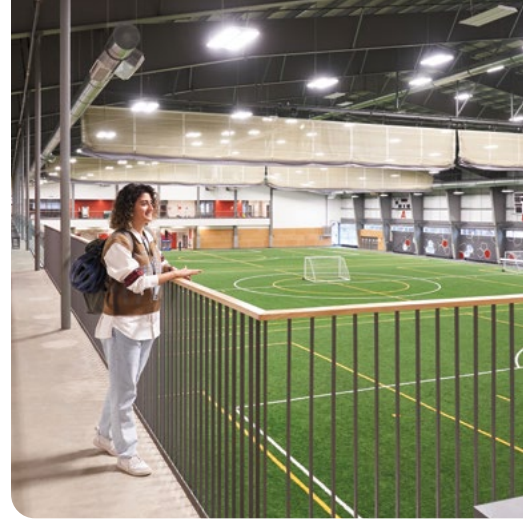

Immigrant and Refugee Student Services (IRSS)

uwinnipeg.ca/irss

IRSS supports immigrant and refugee students during their journey to UWinnipeg and beyond. Dedicated supports assist students through each step of the process.

Programs offered through ISS & IRSS:

- › **Transition Year Program**
The transition to post-secondary studies may be challenging for some high school students and mature adult learners. The Transition Year Program (TYP) has been developed to assist students in building the academic and personal coping skills necessary for post-secondary success.
- › **Mentor Program**
Open to any new student, including international, visiting and exchange students, newcomers, rural Canadians, adult learners, and any other student who wants to meet new people, get some extra help and learn new things about UWinnipeg and living in the city.

How to apply

uwinnipeg.ca/apply

01.

Discover

- › Explore our list of programs on page 16-17.
- › Learn more about the programs by reading their descriptions on pages 18-29.
- › Check out our program pages at: uwinnipeg.ca/programs
- › Attend Future Student Night November 24, 2026 or Open House February 17, 2027.
- › Book a campus tour.
- › Meet with a recruiter for information about programs, admission requirements, and the online application.
- › Email welcome@uwinnipeg.ca to sign up for our monthly e-newsletter.
- › Follow us on Instagram to stay connected: [@uwinnipegrecruit](https://www.instagram.com/uwinnipegrecruit)

02.

Apply

- › Review the admission requirements on page 35 or on our website: uwinnipeg.ca/future-student
- › Visit uwinnipeg.ca/apply to create your account and apply.
- › Pay the \$100 application fee.
- › Submit supporting documents when requested by the Admissions Office (through the application portal).
- › Apply for scholarships and awards.

Ready to apply?

03.

Next steps

- › Watch for your official Letter of Acceptance, sent to your email.
- › Check the confirmation email you receive after applying for admission to retrieve your user ID and password.
- › Log in to WebAdvisor to access Student Planning, where you plan and register for your courses.
- › Set up an appointment with an Academic Advisor.
- › Attend a Let Me Know Presentation and/or First Year Information session.
- › Register and attend Orientation.
- › Pay your tuition fees before the start of classes.

Admission requirements

uwinnipeg.ca/future-student

UWinnipeg students bring diverse experiences and backgrounds to our vibrant community. Whether you are a Manitoba student completing high school, an adult learner, a second degree-seeker, or from another province, we welcome you.

Manitoba high school students

Regular requirements for programs in all faculties (except the Faculty of Education):

Current high school students graduating in June, or high school graduates, should have at least 30 Manitoba high school credits, including:

- › Five credits at the Grade 12 level (40 A, S, G or U).
Three must be 40S. Physical Education 40F cannot be used as one of the five courses.
- › Present at least one credit of core English 40S (Comprehensive, Literary, or Transactional Focus) and one credit of core Mathematics 40S (Pre-Calculus, Applied, or Essential).
- › Have a minimum 65% admission average, calculated using:
 - One English 40S
 - One Mathematics 40S
 - One other 40S credit from a different subject area

The highest grade will be used for each required course, if more than one option is available.

Some programs have prerequisite courses, which can be found with each program description, if applicable. See the Program Guide, view program information online at uwinnipeg.ca/programs, or visit uwinnipeg.ca/pre-req. Students lacking prerequisite courses can take foundational courses at UWinnipeg or enrol in an adult educational centre.

There are many types of students looking to study at UWinnipeg, at all stages of their academic path. For other admission categories, including mature, transfer, and homeschooled, visit: uwinnipeg.ca/admissions-req

Français/French Immersion Students

In place of English 40S, Français and French Immersion students may present Anglais 40S or Français 40S to calculate the admission and entrance scholarship averages.

AP & IB credits

UWinnipeg recognizes the Advanced Placement (AP) and International Baccalaureate (IB) secondary school programs, and will take these courses into account when considering admission requirements, scholarships, and university credit. Transfer credit is awarded for more than 25 AP courses and more than 20 IB courses.

In addition to transfer credits, students receive awards for successful completion of AP and IB exams.

Visit uwinnipeg.ca/ap-ib for more information.

- ➔ The language of instruction at UWinnipeg is English. If English is not your first/primary language and you are not from an English-exempt country, you must provide supporting documentation to show you meet one of the required conditions.

Visit uwinnipeg.ca/language-req for more information.

- ➔ See next spread (pg.38-39) for the Faculty of Education admission requirements.

Faculty of Education admission requirements

uwinnipeg.ca/education-apply

The Faculty of Education's Integrated program is a limited enrolment program and there is a selection process for each category. Refer to the English/Math Combination Chart below to check eligibility and to see how the admission average will be calculated.

Admission to the Integrated Education program is competitive, and students who are not admitted may be offered general admission into another UWinnipeg faculty, where they can start a program and then apply to transfer into the Faculty of Education the following year.

Are you taking 1 or 2 core English courses?	Which math are you taking?		
	Pre-Calculus math	Applied math	Consumer math
2 Credits of English 40S or A (2 credits are combined to create one grade) -or- English/Anglais & Français	Eligible Higher grade (either the combined English mark OR Pre-Cal) + 2 Approved List Courses	Eligible Higher grade (either the combined English mark OR Applied) + 2 Approved List Courses	Eligible 2 credits of English + 2 Approved List Courses
1 Credit of English 40S or A	Eligible Pre-Calculus Math 40S + 2 Approved list courses	Not eligible Does not have 2 credits of English or Pre-Calculus Math 40S	Not eligible Does not have 2 credits of English or Pre-Calculus Math 40S

Note:

1. Essential Mathematics 40S cannot be used to calculate the admission average. Advanced Placement and International Baccalaureate courses can be used to calculate Education admission and entrance scholarship averages.
2. Elementary stream: Students who have not successfully completed either Applied or Pre-Calculus Mathematics 40S will be required to take an additional non-credit mathematics course to meet the math prerequisite for the mandated math course in the program OR take an entrance test to determine if they meet the math prerequisite. For more information, please contact the Faculty of Education at 204.786.9491 or education@uwinnipeg.ca.

How is the admission average calculated?

For those with the eligible combination of English and math, the higher grade of either the combined English credits or the math credit will be combined with two courses from the Approved List on the next page.

Example 1:

- › English Comp Focus 40S: 75%
- › English Literary Focus 40S: 79%
- › Applied Math 40S: 85%

The combined English grade is 77% and so the higher Applied Math grade of 85% will be used along with two Approved List courses.

Example 2:

- › English Transactional Focus 40S: 84%
- › Français 40S: 80%
- › Pre-Calculus Math 40S: 75%

The combined English and Français grade of 82% is higher than the Pre-Calculus grade, and so that will be used along with two Approved List courses.

For students with only one English 40S, the average will be calculated using the Pre-Calculus Math and two Approved List courses.

Approved list of Grade 12 courses

The following courses can be used to calculate the average for entrance into the Faculty of Education:

Accounting Systems

Anglais

Art

Biology

Chemistry

Chinese (Cantonese) 41G

Chinese (Mandarin)

Cinema as a Witness to Modern History

Computer Science

Cree/Ojibwe/Saulteaux 41G

Current Topics in First Nations,
Métis, and Inuit Studies

Dramatic Arts

Economics

English (two credits)

Family Studies

Filipino

Français

French

Geography

German

Global Issues: Citizens and Sustainability

Hebrew

History of Western Civilization

Italian

Japanese

Latin

Law

Mathematics (Applied or Pre-Calculus)

Music (one of: Band, Choral,
Guitar, Strings, Private Music Option)

Physics

Polish

Portuguese

Psychology

Spanish

Ukrainian

World Issues

World Religions

All courses 40S unless otherwise indicated.

Scholarships and bursaries

uwinnipeg.ca/awards
awards@uwinnipeg.ca

Entrance awards and scholarships

	Eligibility	Value	How to apply
Special Entrance Scholarships	Recent high school graduates with admission grade average of 85% or higher	85-89.9% - \$1,100 90-94.9% - \$1,750 95-100% - \$2,250	Submit your admissions application before March 1
Applied for Entrance Awards	Variety of criteria such as community involvement, leadership experience, etc.	Varies	Submit your application and log in to the awards portal to apply by March 1
IB Entrance Scholarship	International Baccalaureate Diploma with 30+ points, with no grades below four	\$2,250	Automatic consideration
AP Program Entrance Scholarship	Achieve the Advanced Placement Scholar with Distinction	\$2,250	Automatic consideration
AP Transfer Credit Scholarship	Admitted directly from high school and transfer exam results toward undergraduate studies	\$250 for each AP exam result of 5 \$150 for each AP exam result of 4	Submit a Request to Transfer Credit form before October 31 of first year

In-course awards and bursaries

First-year and continuing UWinnipeg students are eligible for a wide range of awards, bursaries, and prizes in the fall term. The online awards portal automatically matches students to awards based on their student record. Be sure to log in to provide additional information required for many in-course awards and bursaries.

Opportunity Fund Bursary and General Bursary

Bursaries are available to current full-time students with a financial need and a minimum GPA of 2.0. The Opportunity Fund is a unique UWinnipeg initiative and endowment that supports bursaries for Indigenous, low-income and refugee students, as well as those from war-affected countries, recent immigrants, and mature learners. General Bursaries for other domestic students are supported by UWinnipeg to supplement living costs while studying.

Government student aid

Federal and provincial student aid
Provincial and federal student aid and loans are the best options for students who are unable to cover their tuition and living costs while studying. Applying online is easy and the Awards office is here to help.

If you are approved for student aid, you will automatically be considered for grants and bursaries. Your student loan will not need to be repaid while you study full-time.

Obtaining government student aid could mean having **more time to study**. With tuition and living expenses covered through grants, bursaries, and loans, you won't need to sacrifice study time to earn money at a job during the academic year.

It is now easier to apply for awards with our online application. You must apply and be accepted to UWinnipeg before applying for awards and scholarships.

Tuition and fees

uwinnipeg.ca/tuition

Exact tuition fees are determined by the number of courses taken and the faculty that offers them. Five courses per term, or 30 credit hours per academic year, is the maximum course load. Full-time status requires a minimum of three courses per term (18 credit hours per academic year).

Estimated tuition and fees for one academic year (September–April)

5 courses per term (maximum course load)

Tuition—5 courses (30 credit hours in any faculty)	\$4,990-\$5,530
General fees, books, and supplies	\$2,700-\$2,900
UWSA health insurance	\$330
U-Pass (unlimited transit access)	\$465
Total	\$8,485-\$9,225

3 courses per term (minimum course load for full-time status)

Tuition—3 courses (18 credit hours in any faculty)	\$2,995-\$3,330
General fees, books, and supplies	\$2,100-\$2,300
UWSA health insurance	\$330
U-Pass (unlimited transit access)	\$465
Total	\$5,890-\$6,425

Note:
1. All fees are estimated for the 2027/28 academic year and are subject to change. Some programs may include additional costs. All figures in Canadian dollars.
